## Our Mindset

It's all about winning. As former elite athletes our focus, our goal, and our passion is all about helping your organization reach the highest level of success.

If you are NOT satisfied with where you are and are willing to do what it takes to go for the gold, then give us a call.

## Our Tactics

### STRATEGIC PLANNING

Our 360° by 360° approach to strategic planning is different and more effective than what most companies are used to. Our process focuses on eliminating all blind spots to make the best decisions possible and achieve high levels of success, turning strategy into action.

### MANAGEMENT COACHING

Our coaching is about having someone who has been there help to keep you on track. With 30 years of success in business across management, sales, and engineering in multiple industries, we would love to motivate, challenge, and help you meet your goals.

## CHANGE MANAGEMENT

Change is hard and that stress can impact productivity dramatically. ITCB helps leaders to manage change with appropriate communication and involvement, resulting in change that is not just tolerated but embraced.

## EMPLOYEE ENGAGEMENT

The success potential and zone of genius of your team members is usually far greater than leaders believe. With the right processes, staff attitudes, retention and work ethic can skyrocket. We know because we've seen it happen again and again.

## ACQUISITIONS & MERGERS

Most acquisitions and mergers do not reach the profitability levels that were planned. This is usually due to a clash between the people and processes at both companies. It takes more than looking at financials for success in A&M, especially with overseas acquisitions. ITCB can help you reach your goals.

## WHEN YOU'RE IN THE RED

When things seem hopeless you need outside perspective. Helping companies make it out of rough times is our specialty. Companies who think there's nothing left to try are often quite surprised at how simple solutions can be and how quickly things can turn around.
